NARVA - Emergency Lights

Narva's extensive range of rotating beacons consists of the Optimax and Hi Optics families. Optimax utilise a unique 'direct drive' system offering exceptionally quiet operation with minimal wear on components. Hi Optics beacons rely on the more traditional worm drive system but feature long wearing brass worm drives mated with a unique internal suspension system and metal base providing extra protection and prolonged beacon life.

Part Number	Description	Trade (ex.GST)	Trade (in.GST)
85650A	85650A Optimax Rotating Beacon Flange Base - Amber 12/24 Volts - Dual Voltage - Radio Suppressed - Flange Base - High impact polycarbonate lens - 85650R Red - 85650B Blue - 85650G Green		
85652A	85652A Optimax Rotating Beacon Single Bolt Mount - Amber 12/24 Volts - Dual Voltage - Radio Suppressed - Single Bolt Mount - High impact polycarbonate lens - 85652R Red - 85652B Blue - 85652G Green		
85654A	85654A Optimax Rotating Beacon Pipe Mount Base - Amber 12/24 Volts - Dual Voltage - Radio Suppressed - DIN plug for pipe mounting - High impact polycarbonate lens - 85654R Red - 85654B Blue - 85654G Green		

NARVA - Emergency Lights

Part Number	Description	Trade (ex.GST)	Trade (in.GST)	
85658A	85658A Optimax Rotating Beacon Magnetic Base - Amber 12/24 Volts - Dual Voltage - Radio Suppressed - Magnetic Base (rated for use at 110km/h) - High impact polycarbonate lens - Cigarette lighter/Merit plug & 3.5 spiral lead - 85658R Red - 85658B Blue - 85658G Green			
85270A	85270A Hi Optics LED Rotating Beacon Flange Base - Amber 12/24 Volts - Dual Voltage - Combines precisions, rotating optics with high intensity LEDs providing an SAE Class 1 light output - ultra quiet - Brushless magnetic drive system - low current draw - High impact polycarbonate lens & die-cast aluminium base - 85270R Red - 85270B Blue			
85274A	85274A Hi Optics LED Rotating Beacon Magnetic Base - Amber 12/24 Volts - Dual Voltage - Combines precisions, rotating optics with high intensity LEDs providing an SAE Class 1 light output - ultra quiet - Brushless magnetic drive system - low current draw - Polycarbonate lens - Magnetic base includes a rubber suction pad and spiral lead with cigarette lighter/Merit plug - 85274R Red - 85274B Blue			

VISION ALERT - Emergency Lights

The Vision Alert & ECCO Group offers a range of beacon solutions for all applications. Strobe, rotator, LED and incandescent models are available with many of the popular mounting options.

	Part Number	Description	Trade (ex.GST)	Trade (in.GST)
	403000	12/24V 3 Bolt Mount Beacon (Amber)		
	403002	24V 3 Bolt Mount Beacon (Amber)		
	5832D0	10-48V 3 Bolt Strobe Beacon (Amber)		
	101000	LED 5 Flash Patterns Beacon (Amber)		
	107000	12/24V 3 Bolt LED Rotating Beacon (Amber)		

LED AUTOLAMPS - Emergency Lights

LED Technologies LED beacons use state of the art electronic components with no mechanical or moving parts to achieve the rotating beacon simulation. These lamps offer low current draw, low maintenance and long operational life. They are manufactured using tough polycarbonate lens and base, are fully sealed, dust and water proof and backed by a three year warranty.

Part Number	Description	Trade (ex.GST)	Trade (in.GST)	
LRB190	LED Amber Rotating Beacon - 10-30Volt - 3 Bolt Mount			
LRB145	LED Amber Rotating Beacon - 10-30Volt - 3 Bolt Mount			
LRB130	LED Amber Rotating Beacon - 10-30Volt - 3 Bolt Mount			

NARVA - Driving Lights

From extensive research and development benchmarked against the world's best, the Narva Ultima range has evolved, setting a new standard in driving lamps. Unrivalled in light output performance in halogen and H.I.D, the Ultima driving lamp is stylish and modern in its design with a rugged construction.

GREAT WHITE - LED Lights

Today marks the evolution of a driving light and the emergence of a Hunter. Introducing Great Whites: Where power and efficiency combine to make light of the dark. Vision X are a global leader in the lighting industry with a name recognised by 4x4 enthusiasts all over the world. Born from technology found in Vision X lights ensures that they will perform in the most rigorous of 4x4 and trucking, mining, gas and commercial conditions.

NARVA - LED Work Lights

NARVA

Offering one of the most extensive work lamps ranges available in Australia today, Narva lamp for every application. There range features a multitude of mounting options including multiple-point brackets, single bolt, anti-vibration and magnetic with suction rubber pads.

Part Number	Description	Trade (ex.GST)	Trade (in.GST)	
72446	9-64 Volt L.E.D Work Lamp Flood Beam - 550 Lumens Features: A powerful yet compact work lamp with two powerful 3W L.E.Ds ideal for close range illumination and where space is limited. Fully sealed (IP66) with a pre-wired die-cast powder coated aluminum housing. - Quantity of 10			
72449	9-64 Volt L.E.D Work Lamp Flood Beam - 1200 Lumens Features: Four ultra reliable 3W L.E.Ds delivering a powerful spread of whiter and brighter light. Fully sealed (IP66) with a pre-wired die-cast powder coated aluminum housing. - Quantity of 10			
72451	9-64 Volt L.E.D Work Lamp Flood Beam - 2000 Lumens Features: Six 3W L.E.Ds combine to deliver an intense and broad spread of bright white light. Fully sealed (IP66) with a pre-wired die-cast powder coated aluminium housing.			
72451W	9-64 Volt L.E.D Work Lamp Flood Beam, White - 2000 Lumens Features: Six 3W L.E.Ds combine to deliver an intense and broad spread of bright white light. Fully sealed (IP66) with a pre-wired die-cast powder coated aluminium housing.			

TCM - Combo & LED Lights

TCM MINE SPEC EQUIPMENT

TCM's Combo work lights have been developed with quality in mind, featuring heavy duty construction, IP67 waterproof rating and CREE LEDS. Backed by a 12 month warranty TCM's range of work lights are suitable for use with any type of equipment / machinery or vehicle in any work environment.

REVOLUTION - Work Lights

The Revolution range of work lights are an affordable, readily available accessory. If you're looking for a no-frills part or accessory that will do the job with the least amount of fuss, ask for Revolution.

Part Number	Description	Trade (ex.GST)	Trade (in.GST)	
62-82001	Revolution Round 6 LED 900 Lumen 18W Work Light 114mm Diameter - 41mm Deep - 10-30V			
62-82003	Revolution Round 9 LED 1800 Lumen 27W Work Light Sealed Against Dust & Moisture - IP67 Rated - Flood Beam			
62-82004	Revolution Square 9 LED 1800 Lumen 27W Work Light Sealed Against Dust & Moisture - IP67 Rated - Flood Beam			
62-82005	Revolution Square 7 LED 2500 Lumen 35W Work Light Sealed Against Dust & Moisture - IP67 Rated - Flood Beam			

NARVA - LED Bar Lights

Compact, slimline and ultra powerful, the Narva LED bars deliver a bright white light from 5 watt CREE LEDs. Combined with a precision reflector to create penetrating spot beam performance, the bars are manufactured with extruded aluminum and virtually unbreakable polycarbonate lenses, ensuring they are tough enough to handle harsh driving conditions.

	Part Number	Description	Trade (ex.GST)	Trade (in.GST)
	72735	9-32V L.E.D Driving Lamp Bar Spot Beam - 5900 Lumens Features 12 x 5 watt high powered L.E.Ds in an extruded aluminium bar with a 250mm pre-wired lead and Deutsch® connector - Current draw: 2.5A at 9-32V - Length: 358mm		
	72758	9-32V L.E.D Driving Lamp Bar Spot Beam - 9800 Lumens Features 20 x 5 watt high powered L.E.Ds in an extruded aluminium bar with a 250mm pre-wired lead and Deutsch® connector - Current draw: 4.2A at 9-32V - Length: 561mm		
	72766	9-32V L.E.D Driving Lamp Bar Spot Beam - 17600 Lumens Features 36 x 5 watt high powered L.E.Ds in an extruded aluminium bar with a 250mm pre-wired lead and Deutsch® connector - Current draw: 7.6A at 9-32V - Length: 967mm		
	72730	9-33V High Powered L.E.D Work Lamp Flood Beam Bar - 800 Lumens Features: Extreme performance and reliability with a heavy duty slimline die-cast and powder coated aluminium housing ideal for RV and 4WD applications. Fully sealed (IP68) and pre-wired.		

NARVA - Mini Bars

The Euromax range of light boxes features a stylish, aerodynamic lens design made from virtually unbreakable polycarbonate. Utilising twin rotators and highly reflective mirrors they provide an intense, effective flashing light.

Part Number	Description	Trade (ex.GST)	Trade (in.GST)	
85050A	12 Volt Euromax Mini Bar (Amber) 2 Rotators Flange Base Polycarbonate lens - 2x Rotators w/ fitted H1 12V 55W globes & 2x V mirrors to multiply flashes both front and rear - Supplied with mounting kit			
85050A-24V	24 Volt Euromax Mini Bar (Amber) 2 Rotators Flange Base Polycarbonate lens - 2x Rotators w/ fitted H1 12V 55W globes & 2x V mirrors to multiply flashes both front and rear - Supplied with mounting kit			
85051A	12 Volt Euromax Mini Bar (Amber) 2 Rotators Magnetic Base Polycarbonate lens - 2x Rotators w/ fitted H1 12V 55W globes & 2x V mirrors to multiply flashes both front and rear - 3 metre straight lead & cigarette lighter plug - 4 large magnets w/ covers provide secure fitting			
85051A-24V	24 Volt Euromax Mini Bar (Amber) 2 Rotators Magnetic Base Polycarbonate lens - 2x Rotators w/ fitted H1 12V 55W globes & 2x V mirrors to multiply flashes both front and rear - 3 metre straight lead & cigarette lighter plug - 4 large magnets w/ covers provide secure fitting			
85063A	12 Volt Hi Optics L.E.D Light Box (Amber) Magnetic Base w/ Clear Lens magnetic base - 3 metres of straight lead - cigarette lighter plug has two rocker switches - off/on switch			

NARVA - Mini Bars

	Part Number	Description	Trade (ex.GST)	Trade (in.GST)
	85062A	12 Volt Hi Optics L.E.D Light Box (Amber) Flange Base w/ Clear Lens 8 selectable flash patterns - utilising 6 x 3 L.E.D modules w/ clear polycarbonate lens - flange base w/ low profile brackets for permanent mounting		
	85064A	12/24 Volt Hi Optics, High Powered L.E.D Light Box (Amber) Flange Base w/ Amber Lens Features: 8 selectable flash patterns - 6 x 6 L.E.D modules w/ amber polycarbonate lens & a flange base w/ low profile brackets for permanent mounting		
	85065A	Hi-Optics Low Profile L.E.D Light Box (Amber) 12/24V, Magnetic Base Features: 8 selectable flash patterns - High Intensity L.E.D - Virtually unbreakable polycarbonate lens - 12/24 Volt operation		
	85368A	L.E.D Quad Flash Strobe Light (Amber) Flange Base 12-80 Volts Features: high impact polycarbonate lens - low current draw & resistance to vibration		
	85369A	L.E.D Quad Flash Strobe Light (Amber) w/ Magnetic Base, Cigarette Lighter Plug & 2.5m Spiral Lead Features: high impact polycarbonate lens - low current draw & resistance to vibration		
	85246A	Pulse High Output L.E.D Strobe/Rotator Light (Amber) With 2 Selectable Flash Patterns, Flange Base, 12/24 Volt Features: Dual voltage - polycarbonate lens - aluminum base powder		

NARVA - Mini Bars

Part Number	Description	Trade (ex.GST)	Trade (in.GST)	
85248A	Pulse High Output L.E.D Strobe/Rotator Light (Amber) With 2 Selectable Flash Patterns, Flange Base, 12/24 Volt Features: Dual voltage - polycarbonate lens - aluminum base powder			
85203A	12/24 Volt Low Profile High Powered L.E.D Warning Light (Amber) 3 x 1W L.E.Ds with Multiple Flash Patterns Features: Low profile design - flash patterns can be alternating or synchronized			
85206A	Pulse High Output L.E.D Strobe/Rotator Light (Amber) With 2 Selectable Flash Patterns, Flange Base, 12/24 Volt Features: Dual voltage - polycarbonate lens - aluminum base powder			

VISION ALERT - Mini Bars

Vision Alert offers a cost-effective beacon combining the visibility and performance of a full size lightbar. This compact bar is just 520mm long, perfect for easy fitting to smaller vehicles or a quick mount option where drilling is unsuitable.

Part Number	Description	Trade (ex.GST)	Trade (in.GST)
LSA-1110-0	LED Mini Bar 520mm 12/24V 10 LEDs (Amber)		

NARVA - Warning Lights

NARVA

Narva offers a range of LED warning lamps for various applications offering benefits including reliability, durability and current draw. Their modern design utilises the latest in high performance LED's with a virtually unbreakable lens and stainless steel fittings.

Part Number	Description	Trade (ex.GST)	Trade (in.GST)	
85222A	9-33 Volt High Powered L.E.D Warning Lamp (Amber) w/ 5 Flash Patterns, 0.5m Hard-Wired Cable and Black Base Features: modern design - high performance L.E.Ds - Sonically sealed w/ 5 common selectable flash patterns			
85222B	9-33 Volt High Powered L.E.D Warning Lamp (Blue) with 5 Flash Patterns, 0.5m Hard-Wired Cable and Black Base Features: modern design - high performance L.E.Ds - Sonically sealed w/ 5 common selectable flash patterns			
85222G	9-33 Volt High Powered L.E.D Warning Lamp (Amber) w/ 5 Flash Patterns, 0.5m Hard-Wired Cable and Black Base Features: modern design - high performance L.E.Ds - Sonically sealed w/ 5 common selectable flash patterns			
85222R	9-33 Volt High Powered L.E.D Warning Lamp (Amber) w/ 5 Flash Patterns, 0.5m Hard-Wired Cable and Black Base Features: modern design - high performance L.E.Ds - Sonically sealed w/ 5 common selectable flash patterns			
85222W	9-33 Volt High Powered L.E.D Warning Lamp (Blue) with 5 Flash Patterns, 0.5m Hard-Wired Cable and Black Base Features: modern design - high performance L.E.Ds - Sonically sealed w/ 5 common selectable flash patterns			

NARVA - Alternating Headlight Flasher

The Narva flasher range also includes full compliment of flashers for use with modern L.E.D lighting. These flashers assist in over coming the problems associated with the low current draw of L.E.D lighting. They are available in the common two and tree pin configurations in both 12 & 24 Volt.

	Part Number	Description	Trade (ex.GST)	Trade (in.GST)
	68282	12V 0r 24V Negative Ground - 34AMP - No load LED Ready - Overload & Short Circuit - Flasher Unit (Not Alternating)		
	68284	12V 0r 24V Negative Ground - 34AMP - No load LED Ready - Overload & Short Circuit - Flasher Unit (Alternating)
